

Harsh Sachan

+91 8604304079 hsachan295@gmail.com LinkedIn GitHub

Professional Summary

Data Science and Frontend Developer with strong expertise in Machine Learning, Data Analytics, and AI-powered applications. Oracle Certified Data Science Professional with hands-on experience in building ML models, interactive dashboards, and responsive web applications using React.js. Strong foundation in statistics, SQL, and data-driven decision making.

Education

Galgotias College of Engineering and Technology
B.Tech in Computer Science Engineering (AI Specialization)
CGPA: 8.0/10

Jan 2026

Technical Skills

Programming: Python, C++, SQL, JavaScript
Frontend Development: HTML5, CSS3, React.js
Data Science: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
Machine Learning: Regression, Classification, Clustering, Model Evaluation, Hyperparameter Tuning
Deep Learning: TensorFlow, Keras, CNN, RNN, Transfer Learning
Generative AI: LLMs, LangChain, RAG, Vector Databases
Data Analytics Tools: Power BI, Excel (Power Query, Power Pivot, DAX)
Database: MySQL, Advanced SQL (Joins, Subqueries, Aggregations)
Tools: Git, GitHub, MLflow (Basics)

Projects

Real Estate Property Listing Website

- Developed a responsive real estate web application using React.js, HTML5, and CSS3
- Implemented property search, filtering, and dynamic UI components
- Integrated REST APIs for real-time property data handling
- Deployed application with optimized performance and reusable components

End-to-End Machine Learning Project

- Performed data cleaning, exploratory data analysis, and feature engineering
- Built and compared models including Linear Regression, Random Forest, and KNN
- Evaluated performance using RMSE, Accuracy, Precision, Recall, and ROC-AUC

Power BI Data Analytics Dashboard

- Designed interactive dashboards using Power BI, DAX, and data modeling
- Generated actionable business insights from structured datasets

Deep Learning Image Classification

- Built CNN model using TensorFlow/Keras for image classification tasks
- Applied transfer learning and regularization techniques to reduce overfitting

Generative AI RAG Chatbot

- Developed Retrieval-Augmented Generation system using LangChain and Vector DB
- Integrated embeddings and LLM APIs for contextual query answering

Certifications

Oracle Cloud Infrastructure 2025 Certified Data Science Professional
Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
IBM SkillsBuild – Introduction to Artificial Intelligence
HackerRank – SQL (Advanced), Problem Solving, Software Engineer Intern

Google Cloud – Introduction to Generative AI
TATA Deloitte – Data Analytics Job Simulations

Achievements

- Built multiple AI and data-driven academic projects - Strong problem-solving background with Data Structures and Algorithms - Experience with cloud-based AI tools and enterprise analytics platforms
